

We Support You!

How your Care Management Team supports you:

- We listen and answer questions about your health goals and needs
- You learn ways to take the best care of your health
- We review your medications and answer questions you may have
- You are provided psychosocial support and linkage to community services, including help with housing, food, safety, and transportation.
- We coordinate with clinicians, providers, and community resources.
- You will have the support to find doctors, dentists, and other healthcare providers.
- We assist you in communicating your needs with your current healthcare providers
